AMERICAN CHEMICAL SOCIETY

For

Outstanding Achievement in Chemistry

MARYLAND SECTION STUDENT AWARDS

Chairman Stephen M. Gregory of the Student Awards Committee has announced the nominees for the ACS Maryland Section Student Awards for 1992. Winners were selected by their respective institutions.

The nominees will be guests of the Section at the April 15 dinner meeting at Western Maryland College. In addition to being recognized at the meeting and receiving an ACS certificate, each will receive a one year subscription to *The Journal of Chemical Education* or some other comparable ACS journal.

The awardees, grouped by two-year and four-year colleges, are:

Mr. James Remolde, Anne Arundel Community College
 Ms. Wai Fun Wong, Catonsville Community College
 Mr. John Scott Pettingill, Community College of Baltimore
 Mr. David Mark Gilbert, Essex Community College
 Ms. Donna L. Marshall, Harford Community College
 Mr. Gary Booker, Howard Community College

Ms. Doni Brode, College of Notre Dame of Maryland
 Mr. Edward R. Zartler, Goucher College
 Ms. Jaqueline Nabayimbazi Luyimbazi, Hood College
 Ms. Heather L. Schenck, Johns Hopkins University
 Mr. Timothy J. Lipka, Loyola College in Maryland
 Mr. Robert Blackmon, Morgan State University
 Ms. Tammy J. Bauman, Mount Saint Mary's College
 Mr. Michael M. Rosenblatt, Towson State University
 Mr. Hernan Altamar-Estrada, United States Naval Academy
 Ms. Deborah L. Kunkel, University of Maryland, Baltimore County
 Ms. Heather Ann Scholtz, Washington College
 Ms. Christine Ann Pieper, Western Maryland College

In 1991 the Maryland Section recognized two outstanding teachers. Pictured at the November meeting, just after receiving the "supplier award" of boxes of laboratory supplies given by Baxter Scientific, are Ann Kenney of Owings Mills High School and John Roach of Polytechnic. The Section also presents a plaque, a modest cash award and an invitation to a dinner meeting at which the award is presented.

The Editor is responsible for all unsigned material.

DAVID A. KATZ

David A. Katz is an Associate Professor of Chemistry at the Community College of Philadelphia where he has been a full-time faculty member since January 1968. His early interest in chemistry was gained through chemistry sets along with supplies obtained through a chemist friend of his family, supplemented by textbooks from second-hand book shops. Although he majored in art through most of high school, his interest in science led him to apply to Drexel University where he received his B.Sc. in Chemistry in 1967. In 1974, he received his M.Sc. in Inorganic Chemistry from Villanova University.

His primary interests are in undergraduate chemical education, science education for children, public understanding of science, the chemistry of everyday things, safety in the academic laboratory, and the history of chemistry, presenting workshops and publishing papers in these areas. He is best known for his demonstration programs and has gained international attention for his program "Chemistry in the Toy Store" which appeared as a feature article in the 1988 Yearbook of Science and the Future of the Encyclopedia Britannica.

Prof. Katz has been active in presenting workshops and special programs for children and adults in the physical sciences which provide hands-on activities and investigations with everyday things. Since 1984, he has been a faculty member of the Institute of Chemical Education (ICE) sponsored by the University of Wisconsin-Madison for the "K-12 Supplements" workshop teaching teachers how to utilize and develop chemical demonstrations for their classes. In 1985 thru 1987, he initiated this program for ICE at the University of Arizona-Tucson, the University of Maryland-College Park, and the University of Northern Colorado.

Prof. Katz has been active in ACS at both the local and national levels. He is on the Board of Directors of the Philadelphia Section, a Councilor, and served as Chairman in 1984. He served as Treasurer of the Division of Chemical Health and Safety, and the 1989 College Chemistry Examination Committee, and is serving on the Two-Year College Chemistry Committee and the Pre-High School Science Committee of the Division of Chemical Education. Other memberships include the American Association for the Advancement of Science, the Royal Society of Chemistry, the National Science Teachers Association, the Society for the History of Alchemy and Chemistry, the American Association of Physics Teachers, and the History of Science Society.

Prof. Katz's teaching achievements and contributions to chemical education have been recognized by the Chemical Manufacturers Association with the 1983 National Two-Year College Chemistry Catalyst Award. In addition, he was chosen by the Middle Atlantic Region of the ACS as recipient of the 1983 E. Emmet Reid Award for outstanding chemistry teaching at a small college.

CHEMISTRY IN THE TOY STORE

The chemistry of everyday materials affects our lives in the form of consumer items that are used in the kitchen, laundry, bedroom, workshop, garden, and place of work. One place of particular interest is the toy store. Toys are an area where chemical items are common, not just in the materials that playthings are composed of, but many playthings themselves involve chemicals, chemical reactions, or the unique properties of a particular material. Whether it is a chemistry set, a silicone putty, a polymer with unusual properties, liquid crystals, or the batteries used to power mechanical or electronic items, the toy store is a unique place for chemical products. This presentation will demonstrate a variety of chemical toys, old and new, such as balloons, Silly Putty, Slime, Magic Sand, Dissolving Dollars, and others and discuss them with respect to what they are and how they work.

APRIL MEETING

DATE & PLACE:

Wednesday, April 15, 1992
Western Maryland College
Westminster, Maryland

SCHEDULE:

- 6:00 Social Hour
Decker Auditorium
Lewis Hall
- 7:00 Dinner - Dining Porch
Engler Dining Hall
- 8:00 Student Awards Ceremony
Decker Auditorium
- 8:30 Lecture
David A. Katz
Community College
of Philadelphia
"Chemistry in the Toy Store"

DAVID A. KATZ

Dinner reservations should be made by mailing checks, payable to Maryland Section of ACS, to

Dr. Stephen M. Gregory
College of Notre Dame
4701 North Charles Street
Baltimore, Maryland 21210

by April 8. Late Reservations may be made by calling (410) 532-5714 by April 10 (answering machine available).

Dinner price is \$16.00 per person, but spouses and retired chemists may attend for \$14.00; students may attend for \$8.00.

It is not necessary to be a member of the American Chemical Society to attend. You may attend the lecture without attending the dinner.

14th International Symposium on Capillary Chromatography

Symposium & Exhibition
May 25-29, 1992 * Stouffer Harborplace Hotel * Baltimore, MD

The latest developments and innovations in

GC * LC * CZE * SFC * MEKC * -MS * -AES * -FTIR

The newest methods and applications in

Environmental	Drug Testing	Bioactive Compounds
Pharmaceutical	Flavors & Fragrances	Organic Chemicals
Petrochemical	Foods & Beverages	Sample Preparation
Biochemical	Trace Analysis	New Columns

March 31	Dr. Cecil Robinson Johns Hopkins School of Medicine	"Cytochrome P-450 Aromatase: Chemical and Biochemical Studies with a Remarkable Estrogen-synthesizing Enzyme"
April 14	Dr. Luigi G. Marzilli Emory University	"Multinuclear NMR Studies in Bioinorganic Chemistry"
April 21	Dr. Doreen Leopold University of Minnesota	"Gas-phase Studies of Organotransition Metal and Organosilicone Transients by Negative Ion Photoelectron Spectroscopy"

MARYLAND CHEMIST AWARD COMMITTEE

The Maryland Chemist Award Committee is constantly seeking nominees for this award. For details concerning the criteria for the award or method for making nominations, contact the chairman of the committee, Elwin C. Penski 671-3953 or 671-2366 during normal work hours, 877-2923 or 879-8589 at other times.

Members interested in serving on the award committee are also invited to contact Mr. Penski.

When you need to hire temporary personnel for your lab, chances are you have two basic requirements.

- 1. They have to be qualified.*
- 2. They have to be available
when you need them.*

Call the one company that specializes
in filling both of those requirements.
